Profile

I am a dedicated and versatile programmer with expertise in software development, full-stack web development, and graphics design. I have a strong passion for educating people and enhancing student performance. With a comprehensive understanding of teaching and class management, I am capable of effectively conveying complex information. I possess excellent proficiency in Microsoft Office suites, Internet applications, and presentation skills. I am a team player with outstanding interpersonal and communication skills. Furthermore, I am cooperative, humble, and capable of working under pressure to meet deadlines with minimal supervision.
